Public Works Secretariat | File No. 6033 (W) of 194 . [App. F. III-2

Serial No.	
	Letter No. 8004/E dated 7-8-1947 from the Chief Engineer for Irrigation.
	Regarding deputation of Messrs G.D. Ramaswamy and N. Ramapathy to undergo training at the Central Drilling School, Dhanauri (near Roorkee U.P.)
A	In G.O. No. P.W. 3526-7/Est-28-46-6 dated 7-12-1946, sanction was accorded to the deputation of Messrs G.D. Ramaswamy and N. Ramapathy to undergo a course of training as Boring Engineer and Driller respectively in the Central Drilling School of the Central Ground Water Section at Dhanauri (7 miles from Roorkee U.P.).
	2. It is reported that N. Ramapathy has already proceeded to Dhanauri and is undergoing training. The training given is stated to be only on Percussion drill which is not suitable for Tapine State. It is therefore proposed to permit him now to undergo training on special Rotary drill for three months and to return to Tapine instead of undergoing training for about 9 months as originally intended. In this connection reference is invited to letter dated 27-8-1946 of the Govt of India
4	wherein the details of training imparted in the drilling school are given. Training on percussion rigs and rotary rigs are both

NOTE—Contn. Sheet.

Serial No.

included; but no report was then received from the CE that percussion rigs were not suited to Mysore.

3. In the case of Mr. G.D. Ramaswamy, it is stated that he is not able to go outside the State, as he lost his father recently. The CE recommends that he may be permitted to stop away from this training. It is not clear whether Mr. G.D. Ramaswamy went to Dharwar and returned to Mysore on account of his father's death or he never proceeded to Dharwar at all.

4. The proposed orders are:

(i) To permit Mr. G.D. Ramaswamy to stop away work from the training and

(ii) To permit Mr. M. Ramapathy to return to Mysore after a course of training for three months in rotary rigs. Subd

B
18/9/47. As noted in Para 2, the training
Secy (i) of ~~Mr~~ Mr. ~~Rao~~ at Roorkee is reported to be
19/9 not suitable to this Country. This has been accepted by the Principal and the Dharwar Board Drilling Wells Section. They have recommended a short course of rotary drilling work for a period of three months. ~~Mr~~ Mr G.D. Ramaswamy is reported to have

Public Works Department,
Bangalore.

P. W. SECRETARIAT.
6033
Date 10-5-47

Sir,

Deputation for training at the Central Drilling School of Central Ground Water Section.

Adverting to Government Order No.P.W.3526-7/Est. 28-46-6 dated 4-12-1946, sanctioning the deputation of Messrs. G.D. Ramaswamy and M.Ganapathi to undergo training at Dhanauri for a period of 9 months, I have the honour to state that it is stated by the Principal, Central Drilling School that Messrs.Ramaswamy and Ganapathi reported their arrival at Dhanauri on the forenoon of 9-4-1947.

2. It is seen from a representation received from Mr.M.Ganapathi through the Principal, Central Drilling School, that the training now given is only on Percussion Drill which is not suitable for Mysore State as it cannot be successfully used for boring through rocky soil. It is further reported that on bringing this point to the notice of the Principal, it was suggested by the Principal and approved by the Chairman of the Central Ground Water Section, that as a special case Messrs. Ganapathi and Ramaswamy be given training on special Rotary Drill for three months and then sent back to Mysore. The trainees will not be awarded the Diploma as they will not work in the field for six months, as only Percussion Drills are working in the field now.

3. It is seen that percussion drills are not suited for our State as they cannot be used on rocky soil and for this very reason, the question of purchasing of two Percussion Drills - selected from Thompson Mission was subsequently dropped.

4. Mr.Ganapathi who has considerable practical experience in drilling for over 21 years submits that there seems to be nothing much to learn.

5. Mr.G.D.Ramaswami states that he lost his father a few days back that his circumstances do not permit him to go outside, the State and he may kindly be permitted to stop away from this training even now and I recommend that this may be done. I request that - approval of Government may kindly be obtained for permitting Mr.N.Ganapathi to return after completing training for a period of three months at the Central Drilling School as against the period of nine months originally contemplated and to permit Mr.G.D.Ramaswamy to stay away from this training.

I have the honour to be,

Sir,

Your most obedient servant,

GCS/3rd.

CHIEF ENGINEER FOR IRRIGATION.

Representation of Mr.M.Ganapathi, Senior Foreman, submitted to the Chief Engineer for Irrigation in Mysore. Bangalore, through the Principal, Central Drilling School.

I beg to bring the following few lines for your kind consideration.Both Mr.Ramaswamy and myself reported here on 9th.

The training that is being given here is only on the percussion drill and as you may well be aware Sir, it is not at all suitable fo our State assit cannot be successfully used for boring through rock. I may also state here Sir that the two percussion drills which were selected and kept at Calcutta for Mysore State were cancelled for the same reason.

I have been for more than 21 years in this line and I find no news things to learn here, therefore I approached the Principal and explained the matters to him and requested him to send me back. He also kind enough to hear me and was good enough to suggest that as a special case both Mr.Ramaswamy and myself may undergo training here on the special Hailing Rotary drill for three months and then get back as it be useful for our state and as our State will also be getting a similar drill shortly.

He was also good enough to get approval of the Chairman to give us training on the Rotary. Therefore both Mr.Ramaswamy and myself are put on the Rotary and willlbe returning after three mont The Principal also informed me that we will not be given a Diploma as we woubd not be working on the field for 6 months. But I would like to point out here Sir that the field work would not be any use to me or Mr.Ramaswamy as there are no Rotary drills working on the field at present and only percussion drills are working.

Hence I beg to submit that myself and Mr.Ramaswamy will be returning after 3 months' training on the Rotary drills. This may kindly be approved.
